Agency Mission Statement

Our mission is dedicated to delivering one nutritious meal and friendly visit per day to adults in North Port who are unable to prepare a meal for themselves so that they can remain independent and healthy in their own homes.

How does your agency's mission align with UWSSC's Community Impact Focus Areas of Health, Education, and Financial Stability?

By providing a meal to adults who are unable to prepare one for themselves, we ensure that they at least have one nutritious meal each day. By visiting them, we are able to check on their physical health, and call for emergency services if needed. This visit also improves their mental health as we may be the only contact they have during that day. By providing this stability, they are able to stay in their own home, a familiar environment, instead of needing to move to an assisted living home or hospital.

General Information

Please describe the history of your agency.

North Port Meals on Wheels is a 501c3 non-profit organization which was established in North Port, Florida at Trinity Methodist Church in 1971 in a small kitchen at the church where we grew to serve up to 65 meals/day. Then, at the end of 2018, thanks to help from generous donors, North Port Meals on Wheels was able to expand into to a new approximately 1000 SF commercial kitchen at 13600 Tamiami Trail, at the corner of 41 and Biscayne. Our nonprofit is managed by a Board of Directors, with a paid Program Director to handle management of day-to-day activities.

Now, thanks to generous donors like the United Way, and the incredible donation of time and talent from nearly 200 volunteers, we have doubled the number of clients served. While many clients moved away after their homes were destroyed by hurricane Ian, others were able to remain as they worked to repair the damage. In addition, new clients continue to request help, so in July 2023 our average of 682 meals per week was about 7% higher than last July.

Starting in October, we will realign our boundaries with Venice Area Mobile Meals and we will expand our service area to include all of North Port including the area west of River road. This addition will offer incredible opportunities for service in the upcoming years.

We plan to continue to grow and serve all who need our help and while providing at least half of the meals for free or at a reduced cost to clients depending on their income level.

What is your total agency budget? 240,317.00

Is your agency affiliated with any national/state organization or initiatives?

- Yes ☒
- No ☐

Significant Changes

- Change in key staff members (CEO, Program Director, Finance Director, etc.) ☒
- Loss of major funding ☐
- Acquired new major funding ☒
- Other ☐

If any significant changes are checked briefly explain how this has impacted your agency.

In November 2022, we hired a fulltime program director to help with the increasing responsibilities of running and coordinating the day-to-day activities as we grow. This position includes volunteer recruitment and management, kitchen and driver coordination, and enabling fundraising initiatives.

This person along with our paid part-time administrative assistant have helped respond to the increasing number of new client service requests and have relieved much pressure of the daily operations from the volunteer board and daily helpers, so that they are able to help focus on growing NPMOW to the next level.

While the addition of these 2 positions has added to our expenses, they are adding returns in terms of new fundraising and efficiencies in the way we can serve current and future clients. We believe that this investment will continue to pay dividends as the population and need in our area continues to expand.

2023 was the first year we were able to work concessions at Spring Training for the Atlanta Braves. This enabled us to raise money to support our mission while also increasing the awareness. We hope that in 2024 we can grow into a large concession stand to help raise more as well as continue our reach of volunteer recruiting into the Wellen Park area as it grows.

In 2024 we will attempt to secure funds from Sarasota County for the first time and are working on a new grant from Bank of America and others to subsidize as many meals as possible.

North Port Meals on Wheels

Agency Partnership with United Way

Did you receive funding from UWSSC last year? Yes

If you are a previously funded agency, did you conduct an internal campaign or encouraged agency staff and board members to give to UWSSC?

Yes

What is the total amount of funding received from our organization last year? 25,000.00

If you are a previously funded agency, please describe how your agency assisted United Way in the most recently completed campaign?

We continue to publicize United Way events through email and social media posts/reposts and encourage our supporters to help and participate in projects like VITA and other activities.

If you are a previously funded agency, did you use the UWSSC logo on marketing materials, printed materials, social media, website, etc.?

Yes

If you are a previously funded agency, please describe your usage of the UWSSC logo.

The UWSSC logo appears on our letterhead, our menu that goes to clients each month, on our kitchen window, our website, and any newsletters and other informative mailings that we send.

Did your agency assist UWSSC in fundraising and outreach events such as our Annual Kick-Off Event and/or Community Walk, etc.?

Yes

If you are previously funded agency, please describe how you participated in outreach events.

In the past, we have helped with the grant allocation committee. We publicize for help and had 2 or 3 people on grant review teams last year, and are hoping for the same or more this year. We also hope to help with any upcoming fundraisers. We are attending the community lunch in October.

Has your agency "liked" United Way of South Sarasota on Facebook and/or linked to United Way via other social media outlets?

Yes

How does your agency plan on implementing and/or enhancing any of these aspects of the United Way Partnership in this next year?

We 'like' and repost all United Way events as the announcements arrive. We also had some of our people sign up for the VITA program and they hope to do it again

Program Funding Request

Program Funding 25,000.00
**Request for 2023-2024 to
United Way
of South Sarasota County**
Name of Program/Project Meals on Wheels
**for which you are seeking
funding**

Brief Summary of Program and Its Intended Outcomes

We provide a visit and a meal to adults who, for whatever reason, are unable to prepare one for themselves. This helps to improve their physical and mental health and allows them to continue to live in their home, a familiar environment for as long as possible, instead of needing to move to an assisted living home or hospital. Many have no family or other support system other than NPMOW to check on their daily health.

While our standard charge is \$6 per meal, we provide additional financial stability to half of the clients by subsidizing part or all of their meal. This is based for those who qualify based on Federal Poverty Guidelines. The grant money from the United Way goes directly to help pay for these subsidized meals.

Funding Priority Area Health

Program Need

Why is this program consistent with the priority area chosen above?

By providing a meal to adults who are unable to prepare one for themselves, we ensure that they at least have one nutritious meal each day. By visiting them, we are able to check on their physical health, and call for emergency services if needed. This visit also improves their mental health as we may be the only human contact they have during that day. By providing this stability, they are able to stay in their own home, a familiar environment, instead of needing to move to an assisted living home or hospital.

For those who do have family in another part of the country, this also gives them the peace of mind that someone is checking on their loved one and providing for their physical and psychological needs.

We charge \$6 per meal, but for those who qualify (about 50% of our clients), we provide additional financial stability by subsidizing part or all of their meal. The grant money from the United Way goes directly to pay for these subsidized meals. Having free meals reduces the stress of deciding how to divide their limited income between buying enough food to stay healthy, paying for a safe place to live, repairing damages to their home, and paying for prescriptions and other medical costs. If they are unable to sufficiently pay for all of these, their health quickly deteriorates.

What benefits or changes for individuals or populations will occur during or after participating in program activities?

Each day, each client receives a nutritious meal and a wellness check. For many, they have recently been released from the hospital, or have ongoing medical issues, and the food is an important factor in healing. Having a well-balanced meal without having to work to prepare it relieves physical strain and mental stress while providing daily nourishment and independence of the individual. In addition, having a visitor each day provides socialization and encouragement leading to a boost in mental health which also helps in healing and the desire to improve.

This visit also helps ensure that if there is a health issue, someone is there to notice and notify emergency personnel and family. Many clients have family members who live out of state so the visit also gives them a significant peace of mind knowing that their loved one is checked on. Many other clients have no family and we are the only ones checking on them.

As an extension, by improving the health of our clients, and reducing medical expenses incurred by the Medicare system, more resources are made available to other individuals who need medical aid. Hopefully that reduces costs for all using and paying into the system.

Our main goal is to help each client continue to live independently with dignity for as long as possible, by extending the amount of time that they are able to stay in their own home, a familiar environment, before needing to move to a hospital, family member's home, or assisted living.

ALICE Population

Does your program address the needs of the ALICE population? Yes

Does your agency provide services outside of the traditional M-F 8-5 hours? Yes

Provide details on how you provide services after hours.

We prepare and deliver fresh meals Monday through Saturday including holidays such as Thanksgiving and Christmas.

Does your agency provide services outside of the general office setting? Yes

Please provide details on services outside the general office setting.

We deliver meals directly to the homes for people. Many of our clients are unable to drive and several are barely able to move around their home. Having someone bringing prepared food to them is one of the few options they have available to receive a nutritious meal.

Does your agency provide transportation to make your services more accessible for your clients?

No

Does your agency track Federal Poverty Levels of your clients? Yes

Please provide details on how you track Federal Poverty Levels.

When a client mentions that they are not able to afford the full meal price, we ask them about their income sources and amounts.

This many include any or all of these:

- Social security
- Disability
- Retirement benefits
- Any other earned income

We then compare that to the Federal Poverty Guidelines.

If their income is less than 100% of poverty, they automatically qualify for free meals Monday through Saturday. If their income is between 100% to 150% of poverty, they automatically qualify for \$2 meals for up to 6 days per week.

If they cannot pay the amount according to the guidelines, the client coordinator has the authority to grant a lower-priced meal based on extenuating circumstances.

Are there any other ways in which you are or will be providing services/accommodations to the ALICE population?

At Christmas, we provide special gift bags with toiletries, towels, puzzles and snacks with help from North Port Social Services. We also have sent toilet paper and other items throughout the year. We are working with All Faiths Food Bank to help deliver hurricane necessities, and we work to connect clients with hurricane-related needs to UWSSC and other local agencies.

We keep an updated list of services available in the community so that when a client needs extra help, we can assist them in quickly getting connected to local partners.

We have also distributed information from Sarasota Co Human services regarding falls prevention and safety to help inform and protect clients and families.

Previously, we helped connect our clients with the local health services so they could receive free COVID shots at home. We will continue to look for opportunities to augment our services while continuing to deliver our core services of a friendly visit and a fresh meal.

Please describe how your program addresses the ALICE population.

We charge \$6 per meal, but for those who qualify (about 50% of our clients), we provide additional financial stability by subsidizing part or all of their meal. The grant money from the United Way goes directly to pay for these subsidized meals.

Describe how you are filling service gaps within the ALICE population.

We are the only organization in North Port that provides a fresh meal and an in-person visit 6 days per week.

The Federal Agency on Aging and some insurance policies and other companies can provide frozen meals for a short time after a hospital stay. Other companies who can ship meals, or companies like GrubHub that can deliver a daily meal. Walmart is now able to deliver frozen meals or meal ingredients to your door for a fee.

The Salvation Army and other food pantries have food available to pick up if you're able to get out or send a representative. The North Port Police department has a phone check-in service to make sure people are well enough to answer the phone each morning.

For people who have no transportation, no local family or friends, and very limited funds, we are the only organization that can bring them a freshly prepared meal and a personal visit to lift their spirits each day. For many, while they are happy to have the food to help sustain their bodies, the human contact and encouragement provided by the driver is what they really crave.

North Port Meals on Wheels - Meals on Wheels

Program Resources/Activities/Success Story

Inputs

Describe the resources which will be dedicated to your program. Example: money, staff, staff-time, facilities, equipment, etc.

Expenses of North Port Meals on Wheels include groceries and packaging; kitchen and office rent, cleaning and utilities, equipment and maintenance; payroll; office supplies and software for delivery and billing.

We are thankful to the City of North Port for providing a low-rent office space with internet access and conference room access in the Social Services Building on Pan American.

A new expense in 2023 was the addition of a full-time operations director. We also have a part time administrative assistants to efficiently respond to client requests. As we grow, these people will be key to organizing and recruiting the massive number of volunteers, searching out and connecting new clients, and engaging the community for support.

Describe your use, recruitment and retention of volunteers for this program.

We have about 200 volunteer cooks, drivers, and administrators

Volunteers:

- We have 4 or 5 cooks each of the 6 days who work from 6:30 to 9:30 to prepare the food
- We deliver to 8-9 routes, Monday through Saturday. This requires over 50 regular drivers each week, some are couples.
- We have a list of 100 substitute drivers who step in when the regular drivers are sick, on vacation, or north for the summer

Several of our drivers have been serving for over 10 years and have become very attached to the clients. Some go back after driving their route and have lunch or visit longer with certain clients, and others take their own time to help them with shopping, maintenance, or other needs. For most, it's more than just a 2 hour commitment once a week, or as a substitute, it is a very special connection.

Activities and Services

ACTIVITIES & SERVICES : What strategies, techniques, and types of treatment will you use to deliver the proposed services?

Each day Monday through Saturday, we have a different volunteer team with a lead cook and 4-5 helpers who arrive around 7am to prepare a meal and serve it into sealed trays. By 9 am, 8-12 volunteer drivers, and a driver coordinator arrive to pack the meals, and drive the meals to the homes of each individual client.

Many clients are waiting by the door for the friendly face to arrive with their lunch, the only contact they may have that day, and we are able to ensure that they are safe and healthy. If something's wrong, we can notify first responders and family to get the help they need.

Other behind-the-scenes activities include ordering food and stocking the kitchen; recruiting and scheduling volunteer drivers, cooks and helpers; informing clients about services, recording client information and organizing them into ordered routes; balancing the routes so that each one has enough stops but not too many; billing and receiving payments, fundraising, and general bookkeeping.

Success Story

SUCCESS STORY: Provide one anecdotal story or example of how this program has helped someone. Success stories should be from the last 12 months

Recently a driver called the coordinator when a client didn't have her cooler out, didn't answer the door or the phone but her lights were on in the Villa. We called her daughter who immediately came from Englewood and found that her mom was on the floor and had been there awhile. The daughter was so grateful for the call and that wonderful caring driver trusted his instincts. She said that we probably saved her mom's life that day.

An Army Veteran and his wife are 2 of our new \$2 clients. The husband called after his eye surgery because his wife is unable to walk, and he needed help making sure the two of them could eat while he is unable to shop, prepare or cook meals for a while. He was so very happy to know that we could help the two of them while he is recovering.

One of our gratis clients this year lived in a camper at the Myakka RV Resort while he was displaced from his home due to the hurricane. He had back surgery, then a knee replacement so his mobility is limited. He has many medical bills and is very grateful for the financial assistance provided with the meals. He hopes the meals will make him stronger and able to restore his home so he can return there.

A daughter of one of our gratis clients called to ensure that her mom is checked on and eats during the day while she works. Her mother is in early stages of dementia so she can't cook for herself. The daughter is very excited for the peace of mind that our drivers give her as they check on her mom.

North Port Meals on Wheels - Meals on Wheels

Program Financial Narratives

If the Program Budget shows a surplus or deficit, please explain.

The program shows a near breakeven level with the expenses required to continue to grow meals served at a 10% rate and the fundraising required to meet those expenses.

What are your plans to sustain this program?

Our 2024 budget includes some important changes to allow us to continue to grow at a 10% annual rate while continuing to provide at least 50% of meals at a free or reduced rate. Employees include the program director, a part-time receptionist and a new part-time kitchen helper. Helpers for the full time person will be key to the continued success and growth of the organization; we will continue to use nearly 200 volunteers for preparation and meal delivery to help keep costs as low as possible

If UWSSC funded this program in 2022 or 2023, is there any difference between how you stated you would use the funds and how you actually did?

No

Please provide details on any funding differences.

Funds were expended as designated. All grant income is used to pay for expenses directly attributable to providing meals to those who cannot afford to pay the full price for meals.

Please explain specifically how funds from this grant will be used for this program.

All grant income is used to fill the deficit spending created by providing meals to those who cannot afford to pay the full price for meals. The revenue from our paying customers covers their expenses. 50% of the meals provided go to those who need financial support.

The actual total cost of providing meals is about \$7 including all expenses required to run the program. As costs continue to increase, we hope to avoid an increase in meal prices for paying clients, but we cannot guarantee that; but ALICE clients who qualify based on poverty levels will continue to receive free or \$2 meals.

Main program expenses include groceries and trays, rent and building maintenance, utilities, and billing expenses for partial-pay individuals. They also include a the human costs of a program director to help manage our day-to-day operations and a part-time individual to help with intakes and client requests.

If this program is unable to be funded at your full request amount, what is the minimum funding level you could accept and still be able to deliver the program successfully?

20,000.00

Please elaborate

The number of clients who are able to receive meals will be determined by the amount of resources received through grants and donations. We are constantly researching new avenues for funding sources. A reduction of funding will hinder our ability to serve additional ALICE members who cannot afford the full price. This could cause us to have a waiting list for new clients while we secure additional funding.

Another way we may reduce costs is to stop serving meals on Saturdays. A higher percentage of clients on Saturday are reduced-price clients with limited alternatives for the weekend. It is our intention to avoid this if at all possible.

North Port Meals on Wheels - Meals on Wheels

Program Collaboration and Partnerships

Collaboration

Is the program being done in collaboration with other nonprofits, private businesses, governments, schools, or service organizations?

Yes

What systems change has occurred as a result of the work with your collaborations?

Because of our cooperation with local Publix stores, bread and desserts benefit hungry people instead of being thrown away. In addition, some food that we gather is passed on to the Awaken Church food pantry to help those who are able to drive and receive help.

In a similar way, All Faiths Food Bank helps direct food at a reduced cost through us to those in need.

Working with North Port Social services, we are able to connect clients to help from other community organizations so that all of their needs can be met.

Whenever we can reduce the cost of food or can provide more food to our clients, they are able to spend more of their money on other needs like rising rent, medical costs, or hurricane damage repair. This improvement in their nutrition and social well-being doesn't just make our clients feel better, it also helps reduce medical costs that are shared by the country throughout the Medicare system.

Please describe the collaborations and partnerships that help with the service delivery of your program.

Our partnerships with Publix and All Faiths allow us to distribute additional food without the extra expense. Our connection to North Port Social Services allows us to provide additional items and connection to other community services so that we can help engage other organizations to address the specific needs of each client.

Funds from UWSSC and other community organizations make it possible to provide meals to those who cannot afford them. In addition, it takes the collaboration of nearly 200 volunteers to prepare a meal each day and deliver it to so many people each day.

Collaborator 1

Name of Collaborating Partner North Port Social Services

Sector they represent Government

List the strategic work that furthers community impact through this collaboration.

At Christmas, we provide special gift bags with toiletries, towels, puzzles and snacks with help from North Port Social Services. We also have sent toilet paper and other items throughout the year. Our partnership also fosters open communication of other needs our clients may be experiencing and allows us to help quickly connect individuals to agencies who can address those other needs.

How does this collaborating partner contribute to more effective outcomes for program participants

Through our connection with North Port Social Services, we are able to meet other various needs throughout the year, especially at Christmas which helps lift the spirits of so many who live alone and may not have any family at all.

In addition, North Port Social Services and the city of North Port provides a small office for a reduced fee which allows us to receive calls requesting new service and updates. Our kitchen does not have an area for this and without the help of the city, we would not be able to afford this working space.

Collaborator 2

Name of Collaborating Partner Publix

Sector they represent Private Business/Corporate

List the strategic work that furthers community impact through this collaboration.

Each week, the Publix at Coco Plum, Heron Creek, and West Villages provide bread and pastries that we can send to our clients with their meal.

How does this collaborating partner contribute to more effective outcomes for program participants

The clients always look forward to their Friday dessert treats from Publix. This donation helps us offer more food and more variety to the clients than we would normally be able to without additional cost. It also gives us an opportunity to tell others the work that Publix does in our community.

Collaborator 3

Name of Collaborating Partner All Faiths Food Bank

Sector they represent Non-Profit

List the strategic work that furthers community impact through this collaboration.

Because of money and Food donated to All Faiths Food Bank, they are able to provide a list of items available for purchase at a lower cost than we would receive from our partner US Foods. While we are not a 'food pantry' that is able to provide government items for free we can still help feed our subsidized clients at a lower cost.

How does this collaborating partner contribute to more effective outcomes for program participants

Being able to order some food at reduced costs through the All Faiths food bank system allows us to reduce our meal cost so that we can provide free meals to as many people as possible.

As a side note, our partnership (membership) with the National Meals on Wheels allows us to purchase food from US Foods at their lowest national discount rate. We are consistently looking for new ways to keep our grocery costs as low as possible so that we can continue to serve more people in need.

North Port Meals on Wheels - Meals on Wheels

Program Outcomes and Performance Measures

Program Outcome

Program Outcome: Improving people's health

Outputs		2024 Projections / Target
Number of adults served	# of Clients Served	293
Number of meals and visits provided	# of Clients Served	37,566
Indicators		2024 Projections / Target
Percent of clients who say that "meals have improved my overall quality of life" (based on number of responses)	# Clients Served	85
	# of Clients Achieving	72
	% of Clients Achieving	84.71
Percent of clients who say that "The volunteers who deliver my meals help to brighten my day" (based on number of responses)	# Clients Served	85
	# of Clients Achieving	72
	% of Clients Achieving	84.71
Percent of clients who say that "I look forward to seeing the volunteers who deliver my meals" (based on number of responses)	# Clients Served	85
	# of Clients Achieving	72
	% of Clients Achieving	84.71

What tools will you use to measure these indicators?

We survey our clients to determine if they believe that the statement is true and the service improves their quality of life.
